

# School Workforce Annual Census (SWAC): 4 November 2025

The collection of school workforce data for the 2025/2026 academic year

# **Specification for software suppliers**

Date of issue: 31 March 2025

Version: 0.1

#### Audience

Software suppliers of school information management

systems.

#### Overview

This document is provided by the Welsh Government as a specification to support the above audience in developing their school and local authority information management systems to ensure that schools and local authorities in Wales are able to submit data required to comply with statutory duties.

#### **Action required**

For schools and local authorities in Wales to be able to comply with statutory duties in supplying the required data returns, the Welsh Government recommends that software suppliers of school and local authority information management systems that have customers in Wales take full consideration of this specification document when developing their systems.

#### **Further information**

Enquiries about this document should be directed to:

# Version 0.1 Released 31 March 2025

	Specification for School Workforce Annual Censu	ıs 2025
	This is the initial draft release of the specification	Throughout
	document with all years rolled forward.	document
Issue 1	The Forename, Middle Names and Surname character limit has been increased to 65 characters.	2.5 - Changes to existing items
	References to SEN have been removed from the	Throughout
	data collection and now only Additional Learning	document
	Needs (ALN) remains.	

#### 2. Introduction

This specification describes the content of the School Workforce Annual Census (SWAC) for Wales for November 2025. It applies to all maintained schools and local authorities in Wales who are required to provide the Welsh Government (WG) with individual school workforce level data.

SWAC is mandatory for all sectors (Nursery, Primary, Middle, Secondary, Special and PRU's) **and all** teachers and support staff in post on census date. It also includes certain information on teachers and support staff that were in post at any point during the preceding academic year but had left in that period (see Section 5 for phased schedule of data modules).

Census date for the 2025 collection is 4 November 2025.

This specification follows the principles set out below. Suppliers are asked to note the document in its entirety and provide early feedback on issues and queries during the specification review period.

## 2.1 Key principles

Electronic school workforce level data collections from schools and local authorities, including the SWAC, are carried out in line with the principles set out in the Welsh Government's Information Management Strategy<sup>1</sup>.

- SWAC collects individual school staff level and school level data items.
- All data items are as defined in the relevant Common Basic Data Set (CBDS) documentation for Wales.
- Data are grouped into modules.
- School staff level items will be collected as whole modules.
- Clear designation of responsibility as to who should provide each data item (i.e. schools or local authorities).
- Items for collection have been previously notified to software suppliers by separate notification and agreement with the Software Development Forum.

#### 2.2 XML tools

As agreed, and in order to reduce burdens on software suppliers and enhance consistency of validation application across suppliers and Welsh Government systems, the Welsh Government will provide a number of XML tools for optional use by suppliers. Please see the xslt design specification for requirements for, and further details on, implementing the xslt in Management Information System software.

<sup>&</sup>lt;sup>1</sup> https://gov.wales/topics/educationandskills/schoolshome/schooldata/ims/?lang=en

### 2.2.1 XSD (schemas)

XSD files will be provided for each return type, which will define the content of the XML return.

#### 2.2.2 XSLT validation

A set of XSLT applications will be provided to validate the census return files; these will replicate the validation rules specified for this collection. Section 8 of this specification lists the validation CBDS documents to refer to. The XSLT will produce html and XML error reports.

## 2.2.3 XSLT summary reporting

A further set of XSLT applications will be provided to process the XML data return and produce a school summary report. This will replicate the reports as set out in section 11 of this specification.

#### 2.2.4 Production of XSD and XSLT

XML tools for this collection are scheduled to be released in spring 2025.

### 2.3 Purpose of the collection

The School Workforce Annual Census is the Welsh Government's main source of information on the school workforce, and informs the development, delivery and evaluation of key policies, and the monitoring of the effectiveness and diversity of the school workforce.

The main purposes of this census are to:

- provide a greater level of knowledge on the school workforce in Wales, providing an invaluable research base to better inform educational policy and practice in Wales based on robust and accurate evidence;
- ensure a consistent approach to the collection, reporting and publication of data, based on the principle of 'collect once, use many times';
- enhance the evidence base available to inform policy making, particularly around recruitment, retention and turnover of the workforce, equality and diversity, workforce qualifications and the deployment of specialist teachers;
- enable more effective and efficient workforce and succession planning both at a local and national level;
- provide robust and accurate data to undertake complex analysis required to accurately measure the cost of teachers pay in Wales and the impact of changes to pay and the make-up of the workforce upon it;
- provide more detailed demographic and pay information of the education workforce to support the Welsh Government's Strategic Equality Plan objective of working with partners to identify and address the causes of the gender, ethnicity and disability pay and employment differences within the education sector:

- help streamline the collection process in schools and local authorities, as well as providing significant improvements in the quality, timeliness and utility of school workforce statistics. This data collection also supports the aim to reduce bureaucracy in schools; and
- reduce the need to undertake ad-hoc data collections and surveys on the school workforce to inform policy development or monitor progress against objectives.

#### 2.4 New items added

There are no new data items added to the SWAC collection for 2025.

## 2.5 Changes to existing items

The Forename, Middle Names and Surname character limit has been increased to 65 characters for the 2025 SWAC collection.

References to SEN have been removed from the data collection and now only ALN (Additional Learning Needs) remains.

The scope of supply data to be collected as part of the supply module has been extended to include all supply, covering both agency supply and local authority employed supply. Whilst this does not require any changes to the structure and format of the data collected within the return, schools should be recording the required level of information from 1 September 2024 in readiness for the full supply data to be collected in SWAC 2025.

#### 2.6 Items removed

No items removed for SWAC 2025.

# 2.7 Future changes

There are currently no confirmed changes for future SWAC collections.

# 2.7.1 Use of National Insurance number and Teacher Reference number in reporting in MIS software

When suppliers are designing reports for use by schools, they should note that schools are advised that the National Insurance number or Teacher Reference number should not appear in printed format. However, in the event that this does happen then the printed document should be kept securely and shredded immediately to prevent inappropriate use or a breach of security.

#### 2.8 Validations

Validation will be facilitated through provision of XSLT files for SWAC 2025.

As this collection will be part of the autumn release, the XSLT file is due for release in spring 2025.

## 2.9 Summary reporting

A further set of xslt files will be provided to process the XML data and produce a school/local authority summary report (see section 8).

SWAC is mandatory for all sectors (Nursery, Primary, Middle, Secondary, Special and PRU's) **and all** teachers and support staff in post on census date. It also includes certain information on teachers and support staff that were in post at any point during the preceding academic year but had left in that period.

Census date for 2025 is 4 November 2025.

This specification follows the principles set out below. Suppliers are asked to note the document in its entirety and provide early feedback on issues and queries during the specification review period.

# 3. Implementation and key dates

#### 3.1 Census Date

The "Census Date" for the School Workforce Annual Census will be determined as the first Tuesday every November, unless a change is necessary to avoid clashes with school half term breaks.

# 4. Scope

The Welsh Government expects that the majority of the data required at individual level will be generated directly from computer systems within schools and local authorities, rather than entered on purpose-built data entry screens.

The scope is described in detail below.

To find out what data they need to return a school or local authority will need to consider:

- which types of schools are in or out of scope;
- who has the responsibility for each module to ensure that data are returned;
- how many records should be returned for each member of the workforce;
   and
- for which types of staff data items are required.

# 4.1 Schools in and out of scope

The 2025 SWAC covers all maintained school settings in Wales. The following types of settings must return the School Workforce Annual Census:

- maintained nursery schools;
- maintained primary schools;
- maintained middle schools (through age schools);
- maintained secondary schools;
- maintained special schools; and
- pupil referral units.

The following types of settings are not required to return the School Workforce Annual Census:

- early years settings;
- privately funded independent schools;
- non-maintained special schools;
- sixth form colleges;
- other alternative provision providers;

- FE establishments;
- service children's education schools; and
- miscellaneous establishments.

# 4.2 Responsibility for supplying the data

The information to be collected resides across schools and local authorities. The guidance at section 4 sets out which data items should be provided by whom.

Local authorities are responsible as the central collection point for data from maintained schools within the authority, prior to the data being sent to the Welsh Government. Local authorities are expected to scrutinise the data for validity, completeness and credibility. Software suppliers should also make a school summary report available for the information submitted by schools and a local authority summary report for the information submitted by local authorities.

Schools which have opted out of local authority service level agreements for the management of their HR and/or payroll elements should submit their files directly to DEWi. However, they are free to enter into data sharing arrangements with their local authority which can provide the information on their behalf.

# 4.3 Number of records to be returned for each member of the workforce

Details relating to an individual member of the school workforce will be held on more than one system. This may happen in several different situations.

- Where the person works in more than one school at different times throughout the week. Examples include; a) a teaching assistant who works two days in one school and three in another, and b) a supply teacher who is working one day a week at one school and two at another. In both cases each school will be responsible for a record that reflects the time spent by the staff member in that school;
- Where a person ceases working at one school and begins working at another school during the same collection period. In this case each school will be responsible for a record that reflects the time spent in that school. A 'Leaver' record will be required from the school the person ceased to work for, whilst a 'Census' record will be required to be submitted by the new school;
- Where information on an individual member of staff is held on different systems for example, timetables interfaced to a school MIS, and pay and contract information on a local authority HR or payroll system;
- Any one school should only return a single set of modules for a member of
  the school workforce per collection. However, the same person can have
  more than one role in the school, or can have more than one simultaneous
  contract with the same school. To allow for this, multiple contracts, service
  agreements and roles (as well as both old and current contracts) can be
  returned within the contract or service agreement module.

## 4.4 Types of staff for which data are required

#### 4.4.1 School staff

School workforce (individual) level data is required for teachers and support staff that work for schools if they are in post on 'census' date. Each member of the school workforce for whom school workforce level data is required should be engaged to work within a school under arrangements that must be recordable as either a contract or a service agreement.

The following, if they are in post on 'census' date, are examples of those for whom school workforce level data should be returned:

- teachers employed by the school, both with and without QTS;
- support staff employed by the school;
- teachers working at the school who have been supplied by a local authority where the local authority is acting like a supply agency;
- staff on paid or unpaid absence, whether long or short term;
- trainee teachers on teaching practice;
- teachers on the School Direct programme, the Overseas Trained Teacher Programme (OTTP) and the Teach First program; and
- qualified teachers who form a 'pool' to service schools, if they regularly teach in a specified school or schools.

School workforce level data does **not** need to be returned for the following:

- temporary relief or supply staff covering short term absences on an ad hoc basis;
- casual staff without contracts, employed on an ad hoc basis;
- staff working in extended school service provision, for example, breakfast and after school clubs, Flying Start and children's centres;
- staff employed by the local authority that provides support to schools for example, peripatetic music teachers, advisory teachers, educational psychologists, educational welfare officers (information on these will be submitted by the local authority only in the SWAC HR return);
- teachers only engaged in one-to-one tuition outside of the school setting (e.g. personal tutors, individuals providing one-to-one provision in other settings such as libraries);
- governors and voluntary staff; and
- staff for whom there is no role identifier code that equates to the function they carry out, for example, clerk to governors, school crossing patrol staff

If a member of staff works at two establishments, one which is in scope for the school workforce census and one which is not, then information should be returned only for their activity which falls within scope of the school workforce census. For example, a nursery assistant might work at a Flying Start centre and a

maintained nursery and individual level data would need to be returned only for the portion of time they are working in the maintained nursery.

If schools are unsure about which staff they should include in the school workforce census they should check first with their local authority.

### 4.4.2 Local authority-based school staff

In addition to school staff as described above, individual level data is required from local authorities for all centrally employed teachers and advisory teachers, and for those centrally employed support staff that spend the majority of their time in schools. The majority of their time means they spend more than half the time they work (that is, more than 50%) in schools. Only those in post on 'census' date or were in post during the preceding academic year prior to 'census' date should be included.

Each member of staff employed by the local authority for whom school workforce level data is required should be engaged to work for the local authority under a contract.

Specifically, the following staff employed directly by the local authority should be included:

- For teachers, this includes:
  - peripatetic teachers teachers who normally cover a number of schools each week on a regular timetable, usually because they possess some specialist knowledge or skill;
  - teachers working in non-school education, for example teachers providing education by reason of ALN under section 53 of the Additional Learning Needs and Education Tribunal (Wales) Act 2018, staff employed as teachers in institutions other than schools and PRUs, for example, teachers in hospitals or centres run by social services, or those providing home tuition; and
  - where the local authority acts as a supply agency providing teachers to schools on a fixed term or temporary basis.
- advisory teachers often qualified teachers that carry out a range of duties including training staff, helping develop and implement school policy and classroom support. For the purposes of the school workforce census, advisory teachers should be treated as support staff rather than teachers in terms of the data items that need to be provided. This is regardless of whether or not they are on Teacher's Pay and Conditions;
- staff employed by the local authority that provide support to schools, for example, peripatetic music teachers, advisory teachers, educational psychologists, educational welfare officers (information on these will be submitted by the local authority). Staff working in extended school service provision should be excluded from the school workforce census.

Individual level data is **not** required for:

- teachers only engaged in one to one tuition. This complements classroom teaching by addressing barriers to learning that are personal and particular to each child, and it can take place at the child's school or in a town centre location such as a library; and
- staff paid according to teachers' pay and conditions but not falling in any of
  the categories above. The fact that someone is paid according to Teacher's
  Pay and Conditions does not automatically mean they should be included in
  the school workforce census. An example might be a former teacher now
  working as a senior manager with the local authority.

## 4.4.3 Non-teaching staff

The census covers teachers and support staff employed both full-time and parttime<sup>2</sup> in the maintained settings in Wales.

"Non-teaching staff"3 are comprised of:

- a) "Teaching assistants": Those support staff based in the classroom for learning and pupil support staff, for example, HLTAs, teaching assistants, additional learning needs support staff, nursery officer/assistant, minority ethnic pupils support staff and bilingual assistants;
- b) "Other support staff": Those support staff that are not classroom based for example, matrons/nurses/medical staff, librarians, IT technicians, technicians, administrative officers/secretaries, bursars and other administration/clerical staff; and,
- c) "Local Authority centrally employed staff" (e.g. education psychologists).

Further details on the staff members for whom data is to be collected can be found in Annexes A and B.

# 4.5 Minimum data set for matching purposes

The following set of data items for each teacher or member of support staff for whom individual level data is required to be provided from both the school and local authority. This data is the minimum required for matching purposes between data systems (i.e. HR, payroll and school MIS) and over time to enable analysis of trends and ensure the accuracy and consistency of information submitted and reported.

The minimum data set for matching purposes consists of:

- Teacher reference number is required, where available, for all members of workforce who have QT status, and to be supplied for others where available:
- Surname;
- Forename;

-

<sup>&</sup>lt;sup>2</sup> Part-time staff who are normally present at the school but work on days of the week other than the Census Reference Date should be included.

<sup>&</sup>lt;sup>3</sup> The full code set provided in CBDS identifies all support staff posts for which data is expected.

- Middle name(s);
- Date of birth;
- Sex:
- National Insurance number, except where not available.

#### 4.6 Staff roles

As part of the school data returns, information must be provided on the roles undertaken by each individual (see Annex A for a list of roles. These include **mandatory** roles (e.g. Headteacher, Qualified Teacher, Leading Practitioner, Higher Level Teaching Assistant, ALN Co-ordinator) where at least one of these roles must be returned for each individual member of staff and the total directed hours per week must be provided.

For each member of staff, any additional (**optional**) role (e.g. head of department, head of year, ALN Co-ordinator (where it is not their main role), cover supervisor) that they may undertake as part of their main role should be entered. No hours are required to be returned for these roles.

See Annex A for a list of roles.

## Additional Learning Needs Co-ordinators (ALNCo)

A new 'Main' role for ALNCo was added to the staff roles codeset in 2020 so that individuals who undertake this responsibility as their primary role can record it along with their full-time equivalence (FTE) for the role. Staff who undertake the ALNCo role in addition to their main role (e.g. headteachers) should continue to record ALNCo as their 'Additional' role.

Under the new ALN reforms the role of additional learning needs coordinators (ALNCos) will replace current special educational needs coordinators (SENCos). The ALNco has been phased in over time and will replace the SENCo role fully by 31 August 2025. The staff role codes 'SP' or 'SC' should be used for ALNco roles. *Examples:* 

**Example 1**: a member of the workforce works full time as a headteacher and also undertakes the responsibilities of ALNCo.

```
Main Role1 = HT (Headteacher); FTE = 1.00.
Additional Role1 = SC ALNCo (as an additional role to main responsibilities))
```

**Example 2**: a member of the workforce is contracted to work 3 days a week as a teacher and 2 days a week as a teaching assistant. In addition to these roles the individual undertakes the responsibilities of the ALNCo and Welsh Language Coordinator.

```
Main Role1 = QT (Qualified teacher); FTE = 0.60.

Main Role2 = TA (Teaching assistant); FTE = 0.40.

Additional Role1 = SC (ALNCo (as an additional role to main responsibilities))

Additional Role2 = WL (Welsh Language Co-ordinator)
```

**Example 3**: a member of the workforce is employed solely as the ALNCo for a school.

Main Role1 = SP (ALN Co-ordinator (for individuals where it is their primary role)); FTE = 1.00

A validation rule will be added to query where an individuals' total FTE is greater than 1.00 across all main roles that it is a valid case.

### 4.7 Snapshot data and historical data

Much of the data to be collected represents some characteristic or status of individuals of the school workforce at a given point in time ("snapshot data"). In addition, the collection also includes "historical data" items, which capture data from the previous academic year; examples of these are absences, pay and conditions and recruitment records.

These may legitimately include data for staff that have left school prior to the census reference date.

The 2025 SWAC collection will collect four historical data modules, capturing information covering the previous academic year:

- "absences" details (provided by local authorities), which will include absences occurring wholly or partly in the academic year prior to the census reference date. (School workforce census absence is recorded differently from pupil absence); and
- "recruitment" and "retention" (provided by schools), which will include
  details of posts advertised during the calendar year, whether they were
  successfully filled or not, and details on teachers who have left the school
  and their destination; and

Aggregated "**supply**" information covering the previous academic year will also be captured for the following data module:

 "supply staff" (provided by schools) which will include information on the number days of teaching and learning support worker supply cover and its total cost.

Successive collections will provide a historical picture of certain aspects of the school workforce.

For the 2025 collection the "Historical data" will relate to the previous 2024/25 academic year.

Supplied by*	Data module	Nature of data	Phase implemented	Time period covered
All Schools	Staff details	Snapshot	Phase 1	Date of data extraction (or leaving date for staff who have left)
All Schools	Curriculum	Snapshot	Phase 1	The timetable for a typical 10 weekday period (or the equivalent of a 10 weekday period averaged over the schools timetable cycle).
All Schools	Roles	Snapshot	Phase 1	Details of roles undertaken by individual.
All Schools	Recruitment	Historical	Phase 2	Vacancies that opened or closed in the period 1 September to 31 August of the academic year prior to census date, including vacancies that were not filled.
All Schools	Retention	Historical	Phase 2	School teachers who left the profession or taken retirement (early or at normal age) in the period 1 September to 31 August of the academic year prior to census date.
All Schools	Supply	Historical	Phase 2	Aggregated level data for the period 1 September to 31 August of the academic year prior to census date.
Local Authorities/ Opted-out schools	Pay &	Snapshot	Phase 1	Contracts and service agreements that are in scope and are open on census date.
Local Authorities/ Opted-out schools	Contracts	Historical	Phase 2	Contracts and service agreements that ended in period 1 September to 31 August of the academic year prior to census date.
Local Authorities/ Opted-out schools	Absences	Historical	Phase 2	Absences that started or finished in the period 1 September to 31 August of the previous academic,

	including for staff who left
	during this period.

#### \*Opted-out schools

Schools that have opted-out of HR/Payroll SLAs with their local authority will have to supply the pay and contracts and absences data themselves, unless they have entered into data sharing agreements with local authorities to supply this data on their behalf for the census.

# 4.8 Contingency spreadsheets

Where schools do not have systems which enable them to automate the provision of the required data directly via the DEWi secure data transfer (e.g. PRU's and schools that have opted-out of service level agreements for HR/payroll with their local authority), pre-formatted contingency spreadsheets will be made available for them to record and submit the required information. They will also be available to local authorities who do not have built-in automated reporting processes from their HR/payroll system for the SWAC HR return.

# 5. Summary of data fields to be returned

Note that this is representative of the modular groupings and order of the School/Workforce CBDS for 2025/26. Modular CBDS\_2526.0.1.xls will shortly be released and the latest iteration should always be used in conjunction with this software specification.

This section presents the information to be submitted for each data module and by whom (schools or local authorities). Where a school has opted-out of local authority service level agreements for the management of their HR and/or payroll elements, the school should submit files for all the relevant data modules, including the local authority data modules. However, they are free to enter into data sharing arrangements with their local authority who can provide the information on their behalf.

#### Kev:

#### School setting type:

**NS** = maintained nursery schools

**PS** = maintained primary schools

**MS** = maintained middle schools (through age schools)

**SS** = maintained secondary schools

**SP** = maintained special schools

**PRU** = pupil referral units

#### School staff type (see Annexes A and B for a complete list):

**CT** = Contracted teachers: including qualified teachers in leadership roles (e.g. Head Teacher, Acting Head etc), classroom teachers (including unqualified teachers), leading practitioners and Trainees on Initial Teacher Education courses. **TAs** = Teaching Assistants: including Teaching Assistants, Higher Level Teaching

Assistants and Foreign Language Assistants

**OthSch** = Other school-based staff: including additional learning needs support staff, administrative staff, pastoral support staff, laboratory/workshop technicians, matrons/nurses/medical staff, librarians, examination officers, School Business Managers.

**LA** = Local Authority school staff: including peripatetic teachers, education psychologists, advisory teachers, educational welfare officers.

# 5.1 Data items to be submitted for each data module

# 5.1.1 School and local authority data modules

# 6. Key dates

## 6.1 2025 census

The November 2025 SWAC, will include both the 'snapshot' and 'historical' data modules.

Data on the school workforce is required as at the census date 4 November 2025.

Census date is Tuesday 4 November 2025.

DEWi opens for SWAC (School and HR) submissions on **Tuesday 4 November 2025**.

Deadline for data submission is Wednesday 17 December 2025.

# 7. User requirements

A number of default values, auto and block fill requirements are requested in order to minimise bureaucratic and administrative burdens in the process of producing an accurate School Workforce Annual Census return.

### 7.1 Mandatory/optional items

Items marked as **M** (mandatory) in the XML structure (see section 9)are required data items. Schema checks will fail if these items are not present; valid data is required for each mandatory field.

Items marked as **O** (optional) in the XML example file may be missing. If no data is present 'no data, no tag' rule applies.

Items marked as **NA** where a data item is 'not applicable' for the specified school type. If data item is not applicable 'no data, no tag' rule applies.

Where modules are optional, data items within may be marked as mandatory as they are required **if** the module is present.

#### 7.2 Miscellaneous

### 7.2.1 Special Characters

The XML convention, which should be followed, is to use '&amp' for '&' and '&gt' for '>'.

The Welsh Government XSLT uses UTF-8 encoding for special characters outside of the Latin character set. This is mainly for accurate Welsh translation of error messages and reports. The Welsh Government specifies UTF-8 encoding for the production of error and summary reports when using the Welsh Government produced XSLT files, but does not require the encoding reference in the XML files produced by suppliers to be UTF-8.

#### 7.2.2 Boolean values

The set of allowed values is {1, 0}.

# **7.2.3 XML tags**

All modular **containers** have been named with the 'NAW...' prefix to ensure no confusion between modules agreed for use in England by the Department for Education (DfE).

# 8. File naming convention

#### 8.1 XML data extraction

See section 8.2 for submitting using contingency spreadsheets.

For schools and local authorities where automated data extraction has been developed within their Management Information Systems (MIS) or HR and payroll systems.

Long file names will be used.

The file extension will be XML.

The file name shall be constructed from the following components:

- (a) Origin Identifier (7 digits)
- (b) Survey/Data Extraction Type (3 characters)<sup>4</sup>
- (c) Destination Identifier (7 characters)<sup>5</sup>
- (d) Serial Number (3 digits)<sup>6</sup>

The components should be separated by underscore characters ("\_").

The file name will differ slightly dependent on the data components and the source of the file.

Schools which have opted-out of Service Level Agreements with their local authority for HR and payroll will be required to returns eparate files for both the school data modules and and local authority modules.

a) An example of a **School Workforce Annual Census** file from a **school** to an LA for the data modules completed by schools would be:

#### 6602050 SWC 660SC25 001.XML

b) An example of a **School Workforce Annual Census** file from a **local authority**<sup>7</sup> for the data modules completed by local authorities and optedout schools would be:

#### 6609100 SWC 660LA25 001.XML

1

<sup>&</sup>lt;sup>4</sup> For SWAC data the survey type will be "SWC".

<sup>&</sup>lt;sup>5</sup> For transfers from schools to LAs, the destination identifier will be the LEA number of the receiving LA followed by "XX" and then "25" where "25" is the last two digits of the current calendar year. For transfers to central organisations, the destination identifier will be the common abbreviation of the receiving organisation (e.g. NAW, Estyn) followed by sufficient "X"s to complete seven characters.

<sup>&</sup>lt;sup>6</sup> The first file in the series shall be "001", the second "002" etc.

<sup>&</sup>lt;sup>7</sup> The <Estab> number for the LA's pay, HR and absence return should be "9100"

c) An example of a School Workforce Annual Census file from a school which has opted-out from local authority HR/payroll service level agreement for the data modules completed by local authorities and optedout schools would be:

### 6602050 SWC 660LA25 001.XML

where '25' are the last two digits of the calendar year, and therefore appropriate to the annual school census with a census date of 4 November 2025.

The total file name length is 27 characters. For files not yet authorised by the school the file extension should be changed from XML to UNA.

# 8.2 Submission using contingency spreadsheet (.xls)

For schools and local authorities using contingency spreadsheets provided by the Welsh government.

Long file names will be used.

The file extension will be XLS.

The file name shall be constructed from the following components:

- (a) Origin Identifier (7 digits)
- (b) Survey/Data Extraction Type (3 characters)<sup>8</sup>
- (c) Destination Identifier (7 characters)<sup>9</sup>
- (d) Serial Number (3 digits)<sup>10</sup>

The components should be separated by underscore characters (" ").

The file name will differ slightly dependent on the data components and the source of the file.

Schools which have opted-out of Service Level Agreements with their local authority for HR and payroll will be required to return separate files for both the school data modules and and local authority modules.

a) An example of a **School Workforce Annual Census** file from a **school** to an LA for the data modules completed by schools would be:

#### 6602050\_SWC\_660SC25\_001.XLS

<sup>&</sup>lt;sup>8</sup> For SWAC data the survey type will be "SWC".

Ω

<sup>&</sup>lt;sup>9</sup> For transfers from schools to LAs, the destination identifier will be the LEA number of the receiving LA followed by "XX" and then "25" where "25" is the last two digits of the current calendar year. For transfers to central organisations, the destination identifier will be the common abbreviation of the receiving organisation (e.g. NAW, Estyn) followed by sufficient "X"s to complete seven characters.

<sup>&</sup>lt;sup>10</sup> The first file in the series shall be "001", the second "002" etc.

b) An example of a **School Workforce Annual Census** file from a **local authority**<sup>11</sup> for the data modules completed by local authorities and optedout schools would be:

#### 6609100\_SWC\_660LA25\_001.XLS

c) An example of a School Workforce Annual Census file from a school which has opted-out from local authority HR/payroll service level agreement for the data modules completed by local authorities and optedout schools would be:

## 6602050\_SWC\_660LA25\_001.XLS

where '25' are the last two digits of the calendar year, and therefore appropriate to the annual school census with a census date of 4 November 2025.

The total file name length is 27 characters.

\_

<sup>&</sup>lt;sup>11</sup> The <Estab> number for the LA's pay, HR and absence return should be "9100"

### 10. Validation rules

For validations for this collection please refer to **NAW Validation CBDS v2526.1.0.xls**.

Wherever possible, software should indicate to the user which school workforce record is causing the error message. We suggest listing at least <TeacherNumber>, <NINumber>, <PersonGivenName>, <PersonFamilyName>, and <DOB> for this purpose. However, please note that the <TeacherNumber> or <NINumber> should not be printed out.

The Validation CBDS contains filters to help during development. Users of the spreadsheet can filter on the collection and sector.

## 11. Summary reporting

Each time a submission is created by the software, or edited by the school or local authority, the software should automatically generate a "school summary file" or "LA summary file".

The Welsh Government will be providing a set of XSLT files to process the xml data and produce a school summary report. The reports as set out in this section are those produced by the XSLT.

This should be a formatted text file, with the attached content and layout, but the precise formatting is not specified. The main consideration is that the summary be easily readable both in the school and by the LA, regardless of any difference between the software that generated it and that being used to read it.

Some references and notes (italicised) are included explaining the derivation of the numbers in the summary from the XML data submission (using, where appropriate, XML tags), where this may not be self-evident. These notes should not appear on the summary itself.

The summary file should be sent to the LA as an automatic accompaniment to the data submission.

The purpose of the school summary is:

- to help the school and local authority staff preparing the return, allowing assessment at a glance to check its accuracy and completeness; and
- to help local authority staff make immediate comparisons with any other information which they already hold.

## 11.1 Main Changes in 2025 Summary Reports

There are no significant changes to the SWAC summary reports.

# 11.2 SWAC School Summary reports (English version) – November 2025

## 11.2.1 English language summary reports for school level data (all schools)

**Summary Report for:** (1)

LA code: (2)

NAW school number: (3)

November 2025

### **Staff numbers:**

### Number of staff by sex and main post (headcount):

	Female (5)		Male	<b>(</b> 5)	То	tal
	Headcount	FTE	Headcount	FTE (208)	Headcount	FTE (210)
Main post	(205)	(206)	(207)		(209)	
Executive Head Teacher						
(6)						
Head teachers (7)						
Acting head teachers (8)						
Deputy head teachers (9)						
Assistant head teachers						
(10)						
Leading Practitioners (11)						
Qualified teachers (12)						
Unqualified Teacher (13)						
Teachers of the Deaf (211)						

		1		
Teachers of the Visually				
Impaired (212)				
Other teachers (not QTS				
status but not 'unqualified'				
i.e. those covered by				
Education Specified Work				
and Registration) (14)				
Trainees on Initial Teacher				
Education courses (15)				
Permanent supply teacher				
(other than any entered in				
above categories) (nursery				
schools only) (16)				
Contracted supply teacher				
(non-agency) (17)				
Total teaching staff roles				
(Sum) (213)				
Higher Level Teaching				
Assistant (HLTA) (18)				
Teaching assistants/aides				
employed in the classroom				
(19)				
Additional Learning Needs				
support staff (20)				
Foreign language				
assistants/language				
support (21)	 			

	ı	1	1	
ALN Co-ordinator (for				
individuals where it is their				
primary role) (214)				
ICT Staff (22)				
School Business Manager				
or equivalent (23)				
Matrons/nurses/medical				
staff (including NHS				
employees) (24)				
Pastoral support staff (25)				
Librarians and library				
assistants (26)				
Examinations				
Officers/Invigilators (27)				
Science and Laboratory				
Technicians (28)				
Midday Supervisors (215)				
Advisory staff (216)				
Other Support Staff (29)				
Administration staff (30)				
Total non-teaching staff				
roles (Sum) (217)				
Total staff roles (Sum)				
(218)				
Headcount total (219)				

Note: The 'headcount total' reflects the number of unique individual members of staff in the SWAC return and may not equal the sum of the headcount for each role. Individuals who have more than one role will be recorded against each role separately.

#### Number of staff by sex and additional roles undertaken (headcount):

Role	Female (5)	Male (5)	Total
Head of School (31)			
Head of Department (32)			
Head of Year (33)			
Head of Key Stage/Phase			
(34)			
ALN Co-ordinator (as an			
additional role to main			
responsibilities) (35)			
Sex and Relationship			
Education Co-ordinator			
(36)			
Welsh Baccalaureate Co-			
ordinator (37)			
Numeracy Co-ordinator			
(38)			
Literacy Co-ordinator (39)			
Cover Supervisor (40)			
Welsh Language			
Coordinator (41)			
Instructor (including sports			

coach) (42)		
Minority Ethnic Support		
(43)		
Traveller Support (44)		
Welfare Officer/Assistant		
(45)		
Data Manager/Analyst (46)		
Other Roles (47)		

# Number of staff by relevant qualification (headcount):

Qualification	Total (220)
Qualified Teacher Status	
(QTS) (51)	
National Professional	
Qulification for	
Headteachers (NPQH)	
(52)	
Higher Level Teaching	
Assistant (HLTA) Status	
(53)	

# Number of staff by ethnic group

Ethnic group (54)	All Staff (221)

[To include one row for each distinct main and extended ethnic background codes where there is at least one member of staff in the school in that category].

## **Disability status of staff**

Disability	Number of staff
Yes (56)

# **Annex A: School Staff Type**

Staff roles – to be collected from all schools as part of <WorkforceCharacteristics>, <NAWRecruitment> and <NAWRetention> modules

#### **NAW-Staff roles**

## \*Role Key

Mandatory - Each member of workforce must have at least one of these roles recorded. Hours must be provided.

Optional - additional roles recorded if performed by member of workforce. Hours not required.

	Role*	Must have at least 1 of these present (i.e. main roles)	Category	Category code (see spec)	Used in Vacancy 'StaffRole' and Leaver 'StaffRole' data items
EH	Main Role - Executive Head Teacher	Y	Teacher	СТ	Y
НТ	Main Role - Head teachers	Υ	Teacher	СТ	Y
AC	Main Role - Acting head teachers	Υ	Teacher	СТ	Y
DH	Main Role - Deputy head teachers	Y	Teacher	СТ	Y
AS	Main Role - Assistant head teachers	Y	Teacher	СТ	Y
QT	Main Role - Qualified teachers	Υ	Teacher	СТ	Y
UQ	Main Role - Unqualified Teacher	Y	Teacher	СТ	Y
LP	Main Role - Leading Practitioner	Υ	Teacher	СТ	Y
TD	Main Role - Teachers of the Deaf	Υ	Teacher	СТ	Υ
TV	Main Role - Teachers of the Visually Impaired	Υ	Teacher	СТ	Υ
ОТ	Main Role - Other teachers (not QTS status but not 'unqualified' i.e. those covered by Education Specified Work and Registration)	Y	Teacher	СТ	N
TT	Main Role - Trainees on Initial Teacher Training courses	Y	Teacher	СТ	N
SU	Main Role - Permanent supply teacher (other than any entered in above categories) (nursery schools only)	Y	Teacher	СТ	N
LS	Main Role - Contracted Supply Teacher (non-	Υ	Teacher	СТ	N

	agency)				
HL	Main Role - Higher Level Teaching Assistant (HLTA)	Y	Teaching Assistant	TA	Y
